

hear appalling statistics highlighting this fact; particularly regarding cases of domestic violence.

Nearly one-third of American women report being physically or sexually assaulted by a husband or boyfriend during their lifetime. The violence is not limited to adult women: One in five high school girls reports being abused by a dating partner.

In 2002 in my home State of New Jersey there were 79,844 domestic violence offenses reported by the police. Women were the victims in over 77 percent, or 61,715, of all these domestic violence offenses. In New Jersey, one act of domestic violence occurs every 6 minutes and 35 seconds.

In Passaic County, New Jersey there were 4,892 reported cases of domestic violence. The numbers are shocking. The crimes: heinous—3 Homicides, 6 Criminal Sexual Contacts, 2,825 Assaults, 280 Criminal Mischief cases, 469 Terroristic Threats, 48 Burglaries, 8 Kidnappings, 23 Criminal Trespass cases, 6 Criminal Restraint cases, 1,183 Harassment cases, 3 False Imprisonments, 20 Stalking cases, and 18 Sexual Assaults. Women were the victims in at least 3,767 of these cases.

We have a responsibility to reverse these unacceptable statistics. The women of Passaic County, of New Jersey and the entire Nation, deserve better. No woman should live in fear of domestic violence.

In addition to the terror, domestic violence is a serious health care issue that affects thousands of women and their children. The health-related cost of domestic violence against women exceeds \$5.8 billion each year.

Health care providers are on the front lines of the battle as they often identify domestic violence and provide victims with care and support. That is why I support the Domestic Violence Screening, Treatment and Prevention Act, which would provide research on the health impact and prevention of family violence; training for health care professionals regarding identification and treatment for families experiencing family violence; and health care coverage for domestic violence identification and treatment.

There is great need for both women and men to join together to speak out and stop the violence. Stop the violence against women. As a Congress, as a Nation, we must work to protect the rights of women and ensure that they have the support and services necessary.

INTRODUCTORY STATEMENT FOR H.R. 3936

HON. CHRISTOPHER H. SMITH

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 11, 2004

Mr. SMITH of New Jersey. Mr. Speaker, today, along with Mr. EVANS, and Mr. SKELTON, I am introducing H.R. 3936, a bill to authorize the U.S. Court of Appeals for Veterans Claims, now located in commercial office space in the District of Columbia, to seek a new location in the greater national capital region. This measure would also express the sense of Congress that a dedicated Veterans Courthouse and Justice Center should be provided for the court and the veterans it serves. It would be located, if possible, on one of

three small parking lots next to I-395 on the Pentagon Reservation.

The court, created by statute in 1988, is an independent Article I judicial tribunal that for the first time gave our Nation's veterans the right to judicial review of the Department of Veterans (VA) benefits decisions on their disability, pension, education and other claims. It should, like all other article I courts, have a permanent courthouse.

In addition to the court, occupants of the new Courthouse would be members of those constituencies that regularly practice before the court, for example, the Veterans Consortium Pro Bono Program, the National Veterans Legal Services Program, and the appellate attorneys of veterans service organizations. The court and the offices of its constituents pay over \$3.7 million per year for their rent. The General Services Administration anticipates that the court's rental costs will increase substantially in the not-too-distant future, so it would be desirable to relocate the court on a government-owned site, if possible.

H.R. 3936 would also require the Secretary of Defense, the Secretary of Veterans Affairs and the Administrator of General Services to submit a joint report to the House and Senate Committees on Armed Services and Veterans' Affairs on the feasibility of locating a new Veterans Courthouse and Justice Center at an appropriate site owned by the United States that is part of or near the Pentagon Reservation.

Mr. Speaker, given the past, present, and future sacrifices of the many men and women of our Armed Forces, I cannot imagine a better use for one of the present parking lots near the Pentagon, than a stand-alone, dedicated Veterans Courthouse and Justice Center to embody the gratitude and respect this Nation has for the service of every veteran.

I invite my colleagues to cosponsor this legislation as a first step toward a Veterans Courthouse and Justice Center for the U.S. Court of Appeals for Veterans Claims.

VETERANS ACCESS

HON. C.L. "BUTCH" OTTER

OF IDAHO

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 11, 2004

Mr. OTTER. Mr. Speaker, many veterans in the first district of Idaho, which I represent, live in rural areas where access to VA healthcare facilities is limited.

In Idaho, access for many veterans is limited by geography; mountain ranges, rivers, and great distances. These veterans deserve better access to the health benefits they've earned by serving our country.

While there are no easy solutions to these problems, I feel the VA has worked hard to provide veterans living in rural areas some opportunities to receive care.

A number of programs including outpatient clinics, temporary clinics, and mobile care units have all helped to address the access problem in these areas.

While these programs have shown some success, I believe there are other innovative ways we can address the access issue.

One such way is limited outsourcing. I am a cosponsor of H.R. 3777, the HEALTHY Vets Act, which was introduced by my colleague

SCOTT MCINNIS. This bill creates opportunities for Veterans in rural areas to access timely healthcare from doctors and hospitals in their communities.

Many rural communities understand the value of their community doctors and hospitals. Rural healthcare is expensive, and these communities are fighting hard to maintain these resources. Allowing veterans access to community hospitals makes sense for our veterans and our communities.

I have a deep appreciation for the men and women who have risked their lives for America's freedoms and feel our Nation should keep its promises to our veterans.

Throughout our history our Nation has been forced to maintain our commitment to freedom, and likewise, we must continue our commitment to our Nation's veterans.

COOPERATIVE RESEARCH AND TECHNOLOGY ENHANCEMENT (CREATE) ACT OF 2004

SPEECH OF

HON. JOHN CONYERS, JR.

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, March 10, 2004

Mr. CONYERS. Mr. Speaker, I rise in support of this legislation. I cannot overstate the importance of encouraging collaboration when it comes to developing new technologies, particularly in the medical field. That is why Congress amended the patent laws in the mid-1980's to allow the patenting of inventions even when the inventions were not developed by a single person.

Unfortunately, the Federal courts have interpreted the law in a way that vitiates our intent in enacting it in the first place. The Federal Circuit ruled in the OddzOn case that an inventor's knowledge of "secret prior art" could prevent the issuance of a patent unless the inventor basically worked in the same organization that developed the prior art.

This ruling is having a detrimental impact on innovation. Because many universities and other non-profits do not enter into the formal structures envisioned by OddzOn when they work to develop drugs and other technologies, they are losing patent protection and an incentive to work together. We will see a decline not only in collaborations but also in the development of life-saving drugs and other inventions.

That is why I am pleased we are considering this bill, of which I am an original cosponsor. H.R. 2391 reiterates the importance of research collaborations by allowing them to obtain patent protection without entering into formal relationships. This legislation will encourage collaboration and spur innovation.

I urge my colleagues to vote "yes" on this legislation.

TRIBUTE TO IRENE COLLINS

HON. THADDEUS G. McCOTTER

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, March 11, 2004

Mr. McCOTTER. Mr. Speaker, last week my district lost a beloved member of our community and, with great sorrow, I pay her posthumous tribute today.
